

Using match filters

Go to www.homeswapper.ie and login

Choose the option for **My Matches** from the left-hand menu or at the top of the page

My Matches page

On the **Find a Match** screen you can choose how you'd like to view your results: as a list or on a map

You can also choose how you sort your results: by distance, rent, highest percentage match, most recently logged in and the newest or oldest properties on the site

Choose your preferences and then click the purple 'Update' button to set them

Types of match filter

There are 3 different types of match filter:

Matches: this is the most used tab of all. It shows homes you want and swappers that want a home like yours

All homes: this is a more general search that matches what you're looking for only, not what other swappers are looking for

Looking for a home like yours: this has the opposite function to the **All homes** tab and instead, brings all the people who are searching for your type of home into one place

Matches filter

The preferences you entered when you signed up will show here automatically, but you can now narrow them down even more

At the top of the **Matches** section you'll see your preferred locations. You can add more here by clicking on 'search a new location'

Next to this, you can select the minimum and maximum amount of beds you'd like to search for

For a more advanced search click the '+ show options' link. This allows you to choose the types of home and other features you want to search for - you can click on all the options you'd like

Remember: the more features you choose, the fewer options you'll see!

For any features that aren't listed, use the 'Keywords' box to type in the extra things you're after

You can also search in this box by username if you're looking for a specific swapper

Your matches

Now you're ready to see your results!

Make sure you've clicked on the purple 'Update' button at the top of the **Matches** section to fix all your new preferences and then click on 'Search'

All the homes that match what you're looking for will appear in a list below, so take a look through and see if you'd like to start chatting with any swappers!

If you want to start again, all you have to do is click on the 'Reset' button and your preferences will be wiped
